L. A. TALENT SOCIAL IS A BIG SUCCESS

Proceeds Amounted to Over \$200—
Large Attendance

It was the source of great surprise and satisfaction to the large attendance at the Talent social in Gordon Memorial church last Thursday evening, when it was announced during the evening amusements that the evening amusements had netted \$200.

The social and entertainment was under the auspices of the Ladies Aid. Some time ago each lady of the Aid undertook to raise \$5.00 by whatever means she could, and to have it ready to place in the talent box on this occasion. She was also to tell how the money was raised. A part of the box was set apart for this purpose and the many and varied ways in which it was accomplished proved most amusing and interesting. Many told their story in cleverly written verse forms showing that every conceivable means—from selling cakes to cashing the business's cheque—was employed.

From this source \$100.00 was handed. The balance was taken in the collection at the door.

As it was St. Patrick's day an appropriate Irish program was rendered during the evening, and an Irish melody, "The Rascals' Play," was put on in a very amusing way by Miss Steneham, Miss Hurlbert, D. Cooke, H. Thacker and Ed. Cook, the latter taking the part of the clown.

Officers and members of the Aid wish to extend their hearty thanks to all who assisted them in raising their Talent money and also all who contributed to the very entertaining program.

C.P.R. Interested in Swine Clubs

Gives Cup and Free Transportation To Winners of Prize

The provincial and Dominion governments have co-operatively organized boys' and girls' Swine Clubs throughout the three Western provinces. The Canadian Pacific Railway Company offers, as a prize a trophy to each of three clubs on C.P.R. lines winning these boys' and girls' Swine Club competitions, in Manitoba, Saskatchewan and Alberta.

In addition, the winning teams (members of Clubs C.P.R. lines) will be taken to the 1927 Royal Agricultural Winter Fair at Toronto next November as guests of the Canadian Pacific Railway Company.

Canada's position in the markets of the world as a profitable hog producing country will be given largely if not entirely, by the type of hog which Canadian hog producers adopt. The Canadian Pacific Railway believes a practical demonstration to be the most effective method, and has decided to continue the ward of these trophies for the purpose of further encouraging the production of the approved type of hog.

COMING EVENTS

Illustrated lecture in St. Andrew's Parish hall Tuesday, March 28th.

Men's Night at Gordon Memorial church, March 29th.

Legion benefit whist drive and dance, April 1st.

Stampede whist drive and dance, April 8th.

Miss Nickawa, crew entertainer, in Gordon Memorial church, April 22.

St. Andrew's S.W.A. sale in Parish hall, April 28th.

Every day from now till end of March, teaching very little, subscriptions for the Review at this office.

ALBERTA IN CORN BELT

The Province of Alberta is definitely in the corn belt of North America, says a report from the provincial government. Although a few years ago it was producing very little corn, this has now come to be a notable item in the annual agricultural production. Last year more than 15,000,000 worth was produced, mainly in the southern part; and the corn exhibits were favorably commented on at various local fairs.

Harry Murphy Died Here Last Tuesday

Funeral This Afternoon From Gordon Memorial Church

After a long and lingering illness, Harry Murphy passed away at his home here last Tuesday morning. Deceased, who was born in Ross Gore, N.S., 36 years ago, came to Redcliff in 1915. His main object in coming west at that time was for his health, and although slightly improved after coming here he never got sufficiently strong to do any work. However, until quite recently he was able to get out and around and attend to odd tasks around the house. Two weeks ago he contracted a severe cold which settled on his lungs. This was too much for his frail condition and he rapidly sank.

On account of his delicate condition deceased was unable to take part in any of the town's activities but he was an interesting conversationalist with those who knew him. Despite his condition he always looked on the bright side of life and seldom, if ever, referred to his troubles. Deceased's father and two sisters are still living in Nova Scotia, and his only brother, Sister, lives in Brooks. Throughout deceased's entire illness his brother, Sister, has been most unselfish and untiring in his efforts to make him comfortable and contented, and Sister speakers in the highest terms of self-sacrifice and devotion to his brother during his last illness by Mrs. McLaren.

The funeral took place this afternoon from Gordon Memorial church. The remains were interred in Methodist cemetery.

JUNILER STAMPS

The executive of the national committee in charge of the plans for the celebration of the centenary of the confederation, yesterday approved the principle of a historical issue of stamps.

Churches

ST. ANDREW'S CHURCH
Rev. E. L. Cooper, R.A., Vice
Fourth Sunday in Lent, March 27.
Holy Communion, 8 a.m.
S.S. (elder classes) Parish hall, 10.
Bible school, 7:45 p.m.
R. S. (primary) 8:30 p.m.
Evening, Litany and Sermon, 7:30.
Mon. Mar. 28—Children's service and address, 4:15, followed by Children's Choir practice.

Tues. Mar. 29—Lenten Lecture in Parish hall, 8 p.m. "Grenfell of Labrador."

Wed. Mar. 30—J.W.A. meeting in the Parish hall, 4:15 p.m.

Girl Auxiliary meeting, 7:15 p.m.
Thurs. Mar. 31—Women's service and address, 8:30 p.m., followed by W.A. meeting.

Fri. April 1—Evening and address, 7:30, followed by Choir practice.

GORDON MEMORIAL UNITED CHURCH
Rev. N. Matheson, B.A., Minister.

Dear Students: If your home church is not in town, Gordon Memorial feels like to welcome you to share in their activities and services.

Organizations: congregation meet, Official Board, Second Tuesday of each month, 8 p.m.

Communion Service, Second Sunday of each month, 10 a.m.

Women's Missionary Society, the last Thursday afternoon of each month at 3 o'clock.

C.O.L.I.T., Tuesday at 8:30 p.m.
Willing Workers Mission Band, the First and Third Mondays of each month at 4:15.

Ladies' Aid, Thursday afternoon at 3 o'clock, except last Thursday of the month.

Review studies of past quarter, 11:45 a.m. Public Worship.

Highways and Hedges, 2:30 p.m. Young People's Class, Winding Violes, 7:30 p.m. Evening Service, "The Greatest Commandment."

CHURCH OF THE BRETHREN
Sunday School, 10:30 a.m.
Usual services will be held.

ST. MARY'S CHURCH
Celebration of Mass, Second and Fourth Sundays of each month at 7:30 a.m.

Whist Drive & Dance On Friday, April 8th

In Cliff Hall Under Auspices of the Stampede Committee

At a meeting of the Stampede executive held last Friday evening it was decided to hold another whist drive and dance in Cliff hall on Friday evening, April 8th.

A good committee has been appointed and the committee feels that this one will be bigger and better than the last is such is possible. We are assured that some new features will be introduced to add to the enjoyment of the evening.

We are also assured that the best music available will be played on the occasion. Members of the executive are reminded that they are to provide refreshments for the occasion and if they have not been seen to get in touch with the chairman of this committee.

Admission will be \$1.00 a couple, extra ladies 25c. Tickets are now in circulation. Be sure to get one from members of the committee.

Champ Gives Cake For Benefit Dance

The One Who Guesses Correct Weight Takes It Home

As a means of helping to swell the funds for the Legion Benefit dance on April 1st, Champ has donated a fine, big, three-story cake. The cake will be on exhibition at the different stores in town until the night of the dance, and for the everyone may have a guess on the weight of it. The one guessing nearest to the correct weight will get the cake. It will also be at the hall the night of the dance when those who have not already done so may have a guess. Be sure to bring a rubber stamp with you. The cake is worth more than a hundred dollars.

"Beau Geste" Picture At Medicine Hat

Will Be Shown in Empire Today, Tomorrow and Saturday

"Beau Geste," one of the big picture sensations of the season will be shown in the Empire theatre, Medicine Hat, Thursday 7:45 p.m. and Friday 7:45 p.m. The picture will be shown this week with a matinee on Saturday afternoon. Those who have read Major P. C. Gault's book, "Beau Geste," will be glad of the opportunity of seeing this picture.

It is the story of three brothers brought up in England. The adventures of Digby, John and Beau are enthralling. Particularly so are the maneuvers of "Beau," who is invariably resourceful and if he is suddenly and quickly done some romantic thing, he does it thoroughly and completely—and he sticks to it until it is done. But the plot of the story, well, it is near the end of a very interesting dinner party that the biggest and finest explosion in the world, valued at three-quarters of a million francs, is stolen from Lady Brandon, who is the lovely aunt of the three Geste. While the scene is being admired and handled, it suddenly and mysteriously disappears.

But Geste, the favorite nephew of Lady Brandon, takes the blame upon himself, thinking that either his brother John or Beau has succumbed to the allurements of "Beau's" disappearance. He tries to escape to end suspicion upon himself. Follows an exciting chase to the Nile, a frontier fight, a battle of wits, plot, mystery upon mystery, and faith upon faith—with no solution offered until the beautiful—the magnificent—picture of the end.

The Review does not hesitate in recommending the picture to its readers. The mystery thriller is marvelously conducted and the fidelity of the three brothers is a treat.

ALBERTA FOUNDRY CO. LOSSES COURT ACTION

In a written judgment handed down yesterday, Mr. Justice Poirer of the superior court has declared in favor of the Canadian Farm Implement Co. Limited, in its action against the Alberta Foundry and Machine Co. Ltd., and John E. Davies of Medicine Hat. The action was for rescission of certain contracts entered into between plaintiff and defendant.

Men's Night at the Gordon Memorial

On Wednesday, March 30th—A Good Program and Debate

The committee in charge of the program for "Men's Night" at the Gordon Memorial church on Wednesday, March 30th at 8 o'clock is enthusiastic about the way things are shaping up. Every person is willing and eager to do it well. Those in charge are confident that "Men's Night" is going to be a rare treat. The program will be given by men and boys and will include choruses, quartets, songs, recitations and musical numbers. In addition to a most interesting and constructive debate on the subject, "Resolutions that continue in the past program were more conducive to Happiness than they are today." Speakers for the affirmative, Messrs. E. L. Steneham, J. H. Buckner, A. N. Collier, Negative, Messrs. C. T. Hall, Thos. Threlkeld, Harry Champ.

Shanghai Falls to The Cantonese Army

Charges With the British Along the Cession Line

Shanghai fell to the Cantonese army last Monday morning. Reports from that centre state that rioters ran loose and were not under control all day and a band of Chinese troops, presumably attached to the retreating northern army, broke through the barrier to the north of the international settlement and began looting.

A British armored car rushed up in response to a police call for aid. The car was subject to a continuous machine gun fire. Lieut. Newman, Corp. Ables and two soldiers were wounded, slaying and chasing between British soldiers and Chinese troops, probably retreating northerners—resulted in the deaths of two British Punjab soldiers and the wounding of ten other soldiers and police.

A detachment of 40 United States marines was hurried out to reinforce the British troops holding the Markham road bridge on the border between the international settlement and the native district of Chapel.

Public commotion and festivities. 1.—Addresses on Confederation the past and the future, in local gatherings, with broadcasting of speeches by means of national provincial and municipal speakers.

2.—Thanksgiving services on Sunday, May 3, in individual churches or in community services.

3.—The organization of a pageant of Canadian history in Ottawa, and of similar pageants in the various provinces, with the Japanese landed 900 marines. Three Panjabs were shot during the disturbances and one of them died later.

Latest reports indicate the condition in Shanghai are now quieting down considerably.

POOL CONTRACTS READY FOR WHEAT FARMERS

Contract forms upon which the Alberta wheat pool will seek to sign up its members for the five-year period following the present crop year have been determined by the pool directors.

The forms are available at various branches of Canadian life and activity since 1867, including reviews by government departments and by the public. 4.—Revision of pioneer ways of life.

5.—Circulation of portraits of Fathers of Confederation and other pictorial souvenirs.

6.—Issue of memorial postage stamps and medals; medals or badges for school children; special issue of silver coins for sale at more than face value, to be used to help defray expenses.

Other suggestions were endorsement funds for annual awards for literature, art, scientific research, and invention.

WHEAT POOL HAS A BIG ELEVATOR CAPACITY

With the anticipated leasing of No. 2 at Vancouver, the Alberta Wheat Pool will have close to three million bushels of terminal elevator facilities on the coast. The pool's elevator at the mouth of the Fraser River has a capacity of 1,250,000 bushels and the No. 2 at Vancouver 1,000,000 bushels.

Mrs. Frank Hurlbert Died Suddenly Sun.

Funeral Held From Brethren Church Yesterday Afternoon

The announcement of the sudden death of Mrs. Frank Hurlbert last Sunday morning was a great shock to her many friends in town. Although deceased had not been enjoying the best of health for the past few months, her condition was not considered serious and her ultimate recovery was hopefully looked forward to. Around New Year's she contracted a severe cold which left her in a very weak condition, so that when she again took a few weeks ago, she was not able to withstand the additional strain.

Although of a retiring disposition deceased made many friends by her kindness and thoughtfulness for others.

Mrs. Hurlbert passed her sixtieth birthday the 11th of this month. She was married 41 years ago in Wisconsin and is survived by her husband and eight children, five sons and three daughters. These are Mrs. Miller, Benjamin and Gladys, of Redcliff, William of Estevan, Floyd, of Home; Mary, of Seattle, Mrs. Hurlbert, of Seattle, and Walter, of Gull Lake. All but the son, Marion, are home for the funeral.

The funeral took place yesterday afternoon. Service was held in the Brethren church and was conducted by Rev. D. H. Klinger, who spoke in feeling terms of the excellent qualities of deceased. The remains were interred in Hillside cemetery, Medicine Hat.

Dominion Committee Has Jubilee Program

Suggests Ways for Observance of the Centennial

At the first meeting of the National committee for commemoration of the Diamond Jubilee of Confederation formal organization was carried out and the committee elected.

Among the suggestions made was to form the celebration will take the following:

1.—Public commemoration and festivities. 1.—Addresses on Confederation the past and the future, in local gatherings, with broadcasting of speeches by means of national provincial and municipal speakers.

2.—Thanksgiving services on Sunday, May 3, in individual churches or in community services.

3.—The organization of a pageant of Canadian history in Ottawa, and of similar pageants in the various provinces, with the Japanese landed 900 marines. Three Panjabs were shot during the disturbances and one of them died later.

Latest reports indicate the condition in Shanghai are now quieting down considerably.

POOL CONTRACTS READY FOR WHEAT FARMERS

Contract forms upon which the Alberta wheat pool will seek to sign up its members for the five-year period following the present crop year have been determined by the pool directors.

The forms are available at various branches of Canadian life and activity since 1867, including reviews by government departments and by the public. 4.—Revision of pioneer ways of life.

5.—Circulation of portraits of Fathers of Confederation and other pictorial souvenirs.

6.—Issue of memorial postage stamps and medals; medals or badges for school children; special issue of silver coins for sale at more than face value, to be used to help defray expenses.

Other suggestions were endorsement funds for annual awards for literature, art, scientific research, and invention.

SIX MILLION DOLLARS FOR INTERIM WHEAT CHECKS

The making of the interim payment of \$6 million by the Alberta Wheat Pool requires the issuing of approximately 28,000 cheques and advices. The late cheques (for wheat received after the cut-off) will be out by the end of the month. The total distribution of money in the making of this interim payment is about six million dollars.

STAMPEDE EXECUTIVE ELECTS SUB-COMR

At Large Turn Out of Members Held Last Friday

Members of the local Stampede executive turned out in full force to the meeting, held in the Legion reading room last Friday evening. The main business of the meeting was to divide the executive up into sub-committees to take charge of the big celebration and Stampede to held here on Dominion Day, July 1st next.

The following committees were selected:

Finance—Messrs. A. McKenzie, N. Dierce, W. Campbell, E. L. Stone, Grumley—Messrs. R. M. Rose, G. Worts, J. Beattie, T. McNeill, J. Dierce, H. Dierce, T. Todd, P. Congram.

Publicity—Messrs. W. Campbell, H. Dierce, J. Beattie, T. McNeill, J. Dierce, H. Dierce, T. Todd, P. Congram.

School Program—Messrs. R. S. Hodge, J. Dierce, T. Todd, P. Congram.

Arrivals—Messrs. R. S. Hodge, J. Dierce, T. Todd, P. Congram.

Athletic Sports—Messrs. A. Leamouth, D. Kerr, H. Champ, R. Allison.

Advertising—Messrs. E. L. Stone, C. T. Hall, H. Champ and J. C. Jones.

Another executive meeting will be held in the same place on the Monday following the dance, April 11th.

Connies Talmadge's New Comedy Film

Famous Star Said to Have Biggest Production of Her Career in

"Duchess of Buffalo"

Connie Talmadge is coming to town in the picture that thrilled everyone last week.

It is "The Duchess of Buffalo," a story story of Russia, in which Miss Talmadge has the role of an American girl who wins a husband with her beauty and plays havoc with hearts of handsome young officers and wealthy noblemen. The picture comes to the town on Monday.

Creating a sensation in a daring dress before a brilliant audience, she attracts attention and a grand risk, who showers her with jewels. But the dancer is in love with a gang lieutenant, and when the grand finale of the affair is the last young officer imprisoned.

Connie faces to another city, ready to sacrifice her love for the officer in order to safeguard his money. Her sweet-heart, however, escapes and follows her. So does the grand duke.

GOVERNMENT DECIDED ON MAILS BY PLANE

The government has decided to establish an air mail service and to extend this to eastern and western Canada.

Under the co-operative credits Act, in 1926, according to the annual report if the working of that Act presented to Parliament by the provincial Treasurer, Hon. R. G. Reid.

HALF BILLION DOLLARS FOR POOL MEMBERS

Since the formation of the Wheat Pools in Western Canada, over half a billion dollars has been distributed to Pool members by the organization.

From the 1926 crop the Alberta pool has distributed about forty-six million dollars already, with further payments yet to be made.

The gross earnings of the Canadian National railway for the week ended March 21, 1927, were \$5,269,272, as compared with \$5,062,049.19 for the week of 1926, an increase of \$187,222.88, a per cent increase of 3.7.

FOR OVER 30 YEARS

the record of Red Rose Tea is a record of steady progress.

To keep up with the extra demand during 1926 and to further improve the method of packing, so the quality of this fine tea will be more surely protected, the Red Rose Tea packing plant has been completely transformed.

The story of this change will be told in later advertisements.

RED ROSE TEA

"is good tea"

RED ROSE ORANGE PEKOE is extra good.

Solving Western Problems

In H. M. Tery, president of the National Research Council and also of the University of Alberta, making appeal in a recent issue of a Canadian periodical for greater aid in the work of research in Canada, says: "Such an organization could in a few years be made to mean far more to industry than all the petty tariff changes about which there is so much agitation."

In Tery is a man of sound economic vision, he above playing the game of party politics, and it is one whose opinions carry great weight throughout this whole western country, and, indeed, to an increasing extent throughout the Dominion. His work is done in the quietest way, but it is doing its work.

The truth of this statement can hardly be questioned, because, by making provision more efficient gives help by tariff. Industry in all its branches that can possibly be done will be brought. Efficiency in our branch of industry means all other branches where tariff changes which are designed to help one particular industry or group of industries very frequently operate to the disadvantage of other industries more or less dependent upon the first group.

The National Research Council is, within the limits of its comparatively small income, practicing what its president preaches as to the usefulness of scientific research applied to the needs of industry. A few days ago announcement was made that research work of really vital importance to all the wheat farmers of western Canada is to be carried on at all the principal universities of the three prairie provinces in association with the Dominion grain research laboratory at Winnipeg. The importance of which will be appreciated by every farmer who has submitted loss during the present crop season.

The National Research Council means time and apparatus of special equipment on grain research to study various problems connected with the production and marketing of grain, including factors affecting sowing and sowing quality, commercial grading, and storage, affecting grain plants, particularly rust. This committee now proposes an immediate survey of the conditions employed in grain drying, to be followed by a study of the different methods with a view to determining which is most satisfactory from the viewpoint of economy and the resulting quality of the dried product.

In order to make investigation as thoroughgoing as possible, the University of Manitoba, Saskatchewan, and Alberta will engage in the work. Milling and baking test laboratories of the most modern type have already been installed at the Alberta and Saskatchewan Universities and the same equipment is being installed in Manitoba. Dr. Tery has expressed the opinion that it is doubtful if a research of this magnitude has ever before been undertaken in Canada.

Our Prairie Universities are playing a large part in the development of three provinces in finding solutions for many problems. Research work is necessary. To be of any value it must be done thoroughly, frequently covering years of study and many tests. Anything less would be no use. Because of this, many people are impatient of research, and are critical of money spent on it. But the fact remains that it has been the work of scientists and experts, rather than tariff, which has made the United States the most industrial nation in the world. The industries of Great Britain built up their world trade not because of tariff, but through the application of scientific discovery. Industrial Germany was the product of research, not possibly to a greater extent than any other country.

Canada, it must be admitted, has been backward in this respect, and our manufacturers are largely in blame, because for years they have been content with the idea that in Customs tariffs, and in Customs tariff alone, was prosperity to be found. If the Canadian manufacturers would learn the whole weight of their influence and resources look at the National Research Council, a new and better way in Canadian industry would result.

The power derived from the hydro-electric plants of Niagara Falls is equal to the combined efforts of 45,000 men all-handed men.

Pranks, like diamonds, are found in different colors, and, oddly enough, the black pearl is the most expensive. When a rich man tells his frequenters he does it by price.

Children Cry for

Fletcher's CASHEW

MOTHER: Fletcher's CASHEW is especially prepared to relieve infants in arms and children all ages of Constipation, Flatulence, Wind Cols, and Diarrhea; allaying the fever which is so liable to arise from the action of the bowels, and the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of Dr. W. H. FLETCHER, M.D., on the wrapper. Physicians everywhere recommend it.

Delivery Horses in Demand

Reserve Animals Always Needed to Fill Up Gaps

China, outstanding horses, sixteen high, especially strong in the legs, weighing from 1200 to 2000 pounds, and single broken, are the type of animals breeders want for delivery horses, members of the Saskatchewan Horse Breeders' Association were told at their annual meeting, by Dr. J. H. Newman, president. Mr. Newman was speaking for the larger firms in that city who rely on delivery horses for service on their delivery wagons.

"There are over 400 delivery horses in daily service in Winnipeg," Mr. Newman stated, "and reserve animals are needed at all times to fill up the gaps in the ranks. Only one in ten of the animals we get now are single broken, and you can imagine the difficulty of breaking them in busy streets of Winnipeg. Any farmer who has a horse or number of horses answering the description of what we consider the 'Typical Delivery Horse' will be glad to sell them to us at good prices."

Swollen Joints, Quickly Limbered Up

Rub On Nerviline

You would be surprised at the wonderful action of "Nerviline" on such cases. Being this in the way of all preparation, it is able to penetrate into the joints, loosen the muscles, and relieve the pain. For example, in the case of a man who had a severe case of rheumatism in his joints, after using Nerviline for a few days, he was able to move about freely. Nerviline is a powerful medicine, and it is a good idea to have a supply of it at all times.

France Electrifying Railways

Doing More Than Any Other Country In This Line

Here is one reason why railroads will have in change their method of propulsion some time in the near future. Having a train weighing more than 400 tons, a 16-wheel electric locomotive in France the other day did the 115 miles between Paris and Valenciennes at an average speed of 35 miles an hour. This is a record for a locomotive of this type.

Steele has done as well as this when it comes to speed, but there is one more thing that makes the electric, which can be made to do it over again.

France is doing more than any other country; right now, toward the electrification of her railroads, because she has been completely electrified, and work is proceeding on others. This is part of a great hydro-electric development favored by the government, with the idea of relieving France from dependence on foreign coal, and providing cheap power for railroads and industries.

That Overseas Trip

The Canadian Pacific Railway is operating through Canada, stopping here from Vancouver to Montreal, with steamers sailing from Saint John, N.S. This service has been made in order to provide easy connection for overseas travelers. These tourists can go direct to the ship's side, and avoid the usual transfer from train to steamer. How many have taken this route, and how many are taking it now.

Ice Fall is Perennial

Surprising any person in regard to the ice fall in the St. Lawrence, a large, coming down from a height of 18,000 feet to the 1,000 foot level makes a sharp drop of 17,000 feet. The fall is perennial.

Grain Shipments Via Pacific Canadian Pacific and other grain ships plying out of Vancouver will be busy carrying grain during the next month, there being nearly 5,000,000 bushels to go forward during that time, to the United States, the Orient and South America.

Recognized as a leading specialist for the destruction of worms, Mother Gray's Worm Expeller has proved a boon to suffering children wherever it is used.

"We don't need yet no light," remarked the father when he heard of the way in which the doctor had just delivered.

There isn't anything chicken heart about the goose eater.

It is a deplorable fact that this country is a hot bed of people like.

Athletes use Minard's Liniment.

Minard's Liniment for animal ailments.

Mothers Treat Colds The New "Direct" Way

No Longer Necessary to "Dose" Children With Internal Medicines to Break Colds.

Children's ailments on colds are not cured by too much dosing with internal medicines. Vapo-Rub is the best remedy for colds, coughs, and croup. It is a natural product, and it is a good idea to have a supply of it at all times.

VAPORUS

Over 17 Million Jars Used Yearly

Public Health Scholarships

Social Hygiene Council to Create an Endowment Fund

Creation of an endowment fund to provide for one or more public health scholarships in a leading university. It is intended, will be one of the most significant items on the program of Canadian Health Hygiene League during the coming year.

As far as is known, no similar fund exists anywhere in the Dominion and the proposed scholarship, if adopted in detail, demonstrates how very rapidly, during the past few years, has been the growth of the idea that health is not merely a matter which concerns only the individual, and the family doctor, but which is as vitally a matter of public interest as the tariff or freight rates, and most intimately related to the welfare of the country as a whole.

While no details are yet available, the proposed scholarship, it is understood, would be offered to public health students to be selected by the committee to select medical students who have special aptitude or liking for public health work and are inclined to devote to that particular field of medical work.

A DOCTOR'S PRAISE

As Noted Doctor Strongly Endorses Dr. Williams' Pink Pills

The best of any remedy for the blood is Dr. Williams' Pink Pills. Dr. Williams' Pink Pills are a powerful medicine, and it is a good idea to have a supply of it at all times.

Dr. Williams' Pink Pills are a powerful medicine, and it is a good idea to have a supply of it at all times.

Dr. Williams' Pink Pills are a powerful medicine, and it is a good idea to have a supply of it at all times.

Agriculture On Up Trend

Farmer's Have \$2,750,000,000 Invested In Country

Mr. R. A. Price, president of the Royal Canadian Mounted Police, has announced that the total investment in agriculture in the country is \$2,750,000,000.

Only the Unharmful endure the agent of crime. The honest ones only suffer the consequences of crime.

A fleet of fishing boats was coming into harbor, and with them a yacht named Psyche. As she sailed on the wharf. As he saw Miss Psyche he removed the plug and stepped. "Well, that's a good idea," he said. "I'll have to spell fish I ever met."

This paper says a wife in parts of Asia costs fifteen dollars. The twelfth triumphant bittern: Well, a good wife is worth it.

All faculty here have been or soon shall.

Minard's Liniment for animal ailments.

A Wonderful Age

Seventeen Has Been Heroic Age for Many People

Many are the readers who laughed at the cry over "Seventeen." The hero of that book is a typical boy at an age when romantic subjects swing into his head. "Circus, tall and short, blond and brunette; clothes, his first dress suit, gorgeous neckties, the fanciest neckties of playing tennis a week or two, gorgeous, dated at seventeen, what a life!"

Yet seventeen is an age of something besides these things usually associated with callow youth, George Young, winner of the California Channel swimming contest, is seventeen. Think of the qualities necessary to achieve a swim of 23 miles in cold, rough and dangerous waters. One hundred and two men and women made the start, some of them expert swimmers for a decade or more, but it was a youth of seventeen who was there at the finish.

Seventeen is an age when most anything might happen. Time and time again it has been a heroic age for some. At that age many a youth has borne a heavy cross of family support and borne it uncomplainingly. Fortitude, pluck, persistence, industry, all these things are found in the hearts of the youth of this age. It is a wonderful age, and it is a good idea to have a supply of it at all times.

Farwell Message to Canada

Loyalty to Empire Means Peace and Security Said Premier Coates

Mr. Coates, in his farewell message to Canada, delivered in an address to the Canadian Club at Vancouver, expressed his loyalty to the Empire, and his belief in the value of the Empire to Canada.

Mr. Coates, in his farewell message to Canada, delivered in an address to the Canadian Club at Vancouver, expressed his loyalty to the Empire, and his belief in the value of the Empire to Canada.

Prize Birds to be Shown at World's Poultry Congress in Ottawa

Among the exhibits at the World's Congress to be held in Ottawa, Canada, July 27 to August 4, 1927 will be prize birds from the farms of the world. The exhibit will be a wonderful one, and it is a good idea to have a supply of it at all times.

Exhibits to be shown at the Congress are coming from at least 35 countries, of which will be represented by delegates. No less than 2,500 poultry experts and fanciers are expected from the United States.

The Congress is to be held in Lansdowne Park, Ottawa, where the Canadian National Exhibition is held annually. Extensions to some of the principal buildings on the grounds have been made at a cost of \$250,000, in order to hold the Congress.

VIEWS OF GREAT MEN

"We have no rational dependence except on God and ourselves.... We should proceed in doing good because it is our duty, and not from the hope or expectation of grateful returns."

UNFORTUNATE

THE death of the Medicine Hat lad, following the elimination bouts held in that city, recently is most unfortunate, as has thrown a blanket of gloom over all interested in that line of athletic sport. While accident is more or less to be expected even in the mildest forms of sport, yet occurrences of this kind should serve as a warning to guard against possibilities in their repetition in the future.

Boxing has long been referred to as the "manly art" but there appears to be a tendency in the West to substitute fighting for boxing and knockouts are now a common thing in tournament of this kind.

In the old countries and in Eastern Canada boxing tournaments are held in connection with schools, colleges and Y.M.C.A.'s and whole evenings have been passed in this line without the sign of blood or a scratch on any of the contestants. In those cases decisions are given on points, for the agility of the boxers in head, hand and foot work and not for the steam behind the punch.

Lack of proper training to withstand the gruelling mil of present day boxing is also the cause of disastrous effects to those taking part, and paradoxical as it may appear, overtraining is quite liable to be harmful to the individual who indulges in it. The young man who keeps himself in training the whole year round and indulges in some line of athletic sport for all seasons of the year, is liable to overwork his heart and other organs, and, sooner or later, collapse.

Everything possible should be done to encourage good, whole some sport of all kinds, but like everything else it should be indulged in in moderation and every precaution should be taken to guard against accident and the sometimes over-enthusiasm of youth.

GONE, GONE FOREVER!

DID you ever stop to realize, folks, that when you send a dollar on its way out of your community, it is gone forever and can in no way help your community. Of course you did not think of it—the same with lots of others. On the other hand, when the dollar is spent at home, it is bound to have a good effect right where it is spent, and that good effect is bound to have a reaction that will benefit you as well as your neighbors. It is a simple bit of truth and the wonder is that it should be necessary for us to mention it at all—the truth seems to be so evident. Yet it is necessary, for we all know that although too many of our dollars go out of the community for things we can buy at home. Good dollars sent out of your community are sent to concerns who have no personal interest in your com-

munity, who do not pay one cent of taxes there, never contribute to a subscription list, don't support and help keep up schools, churches, or contribute to the upkeep of roads, etc. If your whole community went empty tomorrow it wouldn't matter to them, because their interests are elsewhere.

Surely to goodness, folks, you can see the writing on the wall if you continue this practice. Then why not do the right thing, by your home town merchants. Give them every chance to figure on your requirements, and then it be for one piece of merchandise or a carload. Work for your own community and by so doing you are working for your own benefit. Make your slogan, "My Community First," and then you will be steering in the sure direction of success.

The situation in Shanghai to-day shows that the British were justified in sending soldiers and warships to that point at the beginning of hostilities. As the Albertans remark, "If that small force of British Tommies and British warships were not there, who can tell what would be taking place in Shanghai at the present time."

"Natural Resources," a weekly bulletin printed at Ottawa, under the direction of the department of Interior, states that "Canadian hays are the world's best layers." The ought to be. Everybody appears to be laying for us these days; even the government, gas tax, amusement tax, sales tax, race track tax, and other too numerous to mention.

The Cantonese war lords have introduced something new in warfare in China. Instead of winning battles by shooting down their enemies they send their emissaries ahead of their army well supplied with gold and with it they buy over the enemy army. As a result of his system the Cantonese are now in possession of Shanghai without battering down cities and towns en route.

The Wheat Pool is warning farmers against purchasing foreign any of the so-called "mummy" wheat which has been advertised. "Mummy" wheat is supposed to have been found in tombs of ancient Egyptians, buried four thousand years ago. As a matter of fact wheat loses its germinative power after comparatively few years. This "mummy" wheat is really an inferior grade of Durum.

Recently British textile manufacturers bought in cotton at a very low figure when United States growers dumped their product on the market. The British interest now have a supply on hand that will last them for the rest of this year and part of next and as a result of this they are \$50,000,000 to the good. The British with their old fashioned methods, are not so slow after all, and occasionally take a fall out of the high pressure U. S. business man.

Newfoundland got what the wanted from Labrador. The Maritime provinces everything they wanted through the Dunsmuir report. It should not be Western Canada's turn to get some of the many things she has been supplying for years.

To further assist agricultural development the Canadian Pacific Railway will operate forage, crop, and poultry distribution and demonstration cars to the Alberta district, starting this January. Following the practice of previous years the company will co-operate with the Provincial Government, says Thomas S. Ashton, General Agricultural Agent, Western Lines of the C.P.R. The special cars will feature the international boundary and Calgary, eastward to Lacombe and the Saskatchewan boundary, and west to Red Deer and Rocky Mountain House.

Here and There

At a meeting of the fox breeders of the Annapolis Valley, held at Middleton, it was stated that silver black foxes in captivity in the province number approximately 10,000 which, at a low valuation of \$200 each, makes a total value of \$2,000,000. The annual revenue to the ranchers is placed at \$600,000.

What is practically the first sheet copper mined, refined and rolled in Canada is now at Regina to go on the roof of the new Canadian Pacific Hotel there. As at Regina and at Banff, where magnificent new hotels are being erected by that company, Canadian materials will be used in the building of the new Toronto hotel.

The population of the Prairie Provinces in 1926 was 2,087,082, according to the census taken in that year. This compares with 1,698,157 in 1916, and 886,665 in 1906. In the twenty year period Manitoba has increased its inhabitants from 265,058 to 609,066; Saskatchewan from 237,703 to 821,042 and Alberta from 185,195 to 807,384.

In view of pressure on the transportation facilities of the Canadian Pacific Railway when the full tide of immigration and harvest travel is felt in the coming summer and fall months, the railway has already taken steps to cope with this by sending 210 colonist cars for repair and overhauling to the Angus Shops, the work to be finished upon them not later than April 1st.

Carrying the Canadian Flag to World Ports

Upper left—The work of collecting with its constant course of interest. Lower left—Departure with its attendant of Yvon at the Port. Right.

As evidence of the popularity of Canadian ships, at home and abroad, the Canadian Pacific Empress of France sailed from New York recently on her annual cruise of the Mediterranean booked in her cruise society. In all over 400 passengers were aboard for the two-months' voyage to many of the world's "high spots."

The cosmopolitan group of wanderers was composed of people from every branch of activity in North America. Some were habitual globe trotters, but in the main they represented the average successful citizen going abroad with the satisfaction of having achieved his life's desire—travel. Every province and state on the continent was represented.

According to recent statements made by Walter Maughan, steamship passenger traffic manager, cruising to the four corners of the earth has come to the traveler of the hour approval of the day, and of going

from place to place under one management on ship and shore. This operates worry to the passengers, as every small detail incident to foreign travel is worked out and seen to by the cruise managers and directors, intricate money transactions in foreign currency included. The Empress of France has won the hearts of the travelling public as she has possibly carried as many world celebrities as any other ship afloat, including the heir to the British throne, who has travelled to and from America four times on her.

After two consecutive years as the Canadian Pacific Mediterranean cruise ship, the Empress of France will next year break the trail for the new cruise to South America and South Africa, now being arranged by the company. She will, in addition to touching many ports in the southern hemisphere not readily accessible to the tourist, pay calls once more, at the pleasing portions of the cruise, to the familiar ports of the Mediterranean.
